

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill.—"While going through the change of life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the insane hospital."—Mrs. E. Sheldon, 6887 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, but with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

night. It dropped fourteen explosives and seven incendiary bombs. Ten men, three women and three children were killed and twenty-five persons were seriously injured. In addition about eighty others received minor injuries.

OFFICIAL STATEMENT OF ZEPPELIN RAID

London, April 2 (2:45 p. m.)—The official press tonight gave out the following statement dealing with the Zeppelin air raid on the English coast last Friday night:

"The total casualties reported in the Zeppelin raid on the night of March 31, April 1, now amount to forty-three killed and sixty-six injured. Nearly 200 explosive and incendiary bombs were dropped.

"A Baptist chapel, three dwelling houses and two cottages were demolished. A town hall, four dwelling houses, thirty-five cottages, and a tram car shed were partly wrecked. There was no military damage.

"A number of our aeroplanes went up to attack the raiders. Lieutenant Brandon, R. F. C., riding 6,000 feet, saw a Zeppelin about 2,000 feet above him. At 9,000 feet he got over it and attacked, dropping several bombs, three of which he believes took effect. "Later he got over the airship again and let off two more bombs over her nose. His own machine was hit many times by machine gun bullets. This may have been the Zeppelin which dropped a machine gun, a patrol tank and inflammable projectiles."

SCHWAB ADDS ANOTHER PLANT TO HOLDINGS

Baltimore, Md., April 2.—Charles M. Schwab, chairman of the board of directors of the Bethlehem Steel company, financier, and multimillionaire steelmaster, has purchased 6,000 Battlemore Sheet and Tin Plate company, the \$2,000,000 enterprise recently promoted by J. E. Aldred. The purchase will result in tripling the originally proposed size of the plant.

Reports of the deal from New York were confirmed today by J. M. Jones, president of the tin plate company here. There will be no change in the organization of the local company, it was asserted.

COULD HARDLY DO HER WORK

Housework is trying on health and strength. Women are as much inclined to kidney and bladder trouble as men. Symptoms of aching back, stiff and sore joints and muscles, blurred vision, puffiness under eyes, should be given prompt attention before they lead to chronic or more serious ailment. Mrs. George Hauck, 955 Pearl St., Los Angeles, Calif., writes: "I was awful bad, with such pain I could hardly do my work, and I am very thankful for Foley Kidney Pills." Sold everywhere.

J. Porter Jones is down from Santa Fe. He and "Colonel Jack" Albright and "Sir George" Roslington are working hard to pull Albright through. Watch the line-up.

DON'T SUFFER WITH NEURALGIA

Musterole Gives Delicious Comfort

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little MUSTEROLE on the temples and neck. It draws out the inflammation, soothes away the pain—gives quick relief.

MUSTEROLE is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister!

Doctors and nurses frankly recommend MUSTEROLE for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joint, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet—Colds of the Chest (it often prevents Pneumonia).

At your drugist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

GERMAN BIRDMEN DESCRIBE NIGHT RAIDS ON LONDON

Principal Object in Aeroplane Bombardments Is to Destroy Armed Positions, Say Captured Teuton Aviators.

(By Morning Journal Special Leased Wire) London, April 2 (1:45 p. m.)—"I do not think you would find an officer of the German navy or army who would willingly participate in the killing of women and children."

Lieutenant Commander Brecht, commander of the Zeppelin L-12, which was hit by shell fire in the raid Friday night on English towns and later sunk in the Thames estuary, replied thus to the Associated Press when requested to explain the psychology of German raids on defenseless cities and the killing of harmless civilians.

"I am very well satisfied with the treatment here," he said, "but naturally feel the loss of my freedom as to air raids, we have a much more important object in view than the killing of women and children, namely the destroying of the enemy's armed positions, warships and factories. Women and children become the victims of our operations, but not because we kill them intentionally. It is war."

Evades Questions.

The commander declined to express himself as to whence the airship came, nor would he reply to questions regarding the length and duration of the raid, or whether he had participated in previous raids. But the iron cross with which he was decorated bore the date of the air raid of October 1915, and he informed the interviewer that he had been in the Zeppelin service since the outbreak of hostilities.

Asked whether he knew the location of the airship during raids during darkness and whether he could distinguish buildings and other objects at night, he asserted that he could tell almost exactly but not say whether the bombs fell where they were intended to fall, except in some instances.

Only Doing Duty.

Commander Brecht, who was a regular naval officer before the war, served in Australian waters and also in South America. He said he was acquainted with numbers of British naval men and did not feel any hatred for them, but was doing his duty in fighting the enemies of Germany.

Asked whether he participated gladly in air raids, he replied: "Yes, I do my duty as an officer gladly. As to the risk in air fighting, we know the chances we run and are prepared to take them. Our aircraft was hit three times by anti-aircraft fire and we came down very rapidly into the water."

With respect to the altitude at which the raiding Zeppelin flew he admitted that the height was very great, but evaded more definite information, merely smiling when 5,000 feet was mentioned and saying: "We should not reach England if we flew only at that height."

On a First Raid.

Lieutenant Kuehne, second in command, was more reticent but said that it was his first raid on England. "I had hoped to come again," he added.

Lieutenant Kuehne declared that he knew absolutely where the airship was when cruising and that the Germans were certain they had achieved considerable success in the raid. Both seemed convinced that their aircraft had done damage to the British fleet and military works.

All the members of the ship's crew, when interrogated, expressed satisfaction at the treatment they had received. Their daily rations consisted of a half-pound of meat, a pound of bread, a portion of potatoes, two ounces of margarine, an ounce of salt, an ounce of coffee or half-ounce of tea, two ounces of sugar and two ounces of cheese.

BRITISH LINER SUNK; FOUR OF CREW MISSING

(By Morning Journal Special Leased Wire) London, April 2 (1:47 a. m.)—"The British liner Achilles was sunk Friday. Four members of her crew are missing. The captain and sixty-two other persons from the steamer have been landed."

The Achilles was in the trade between Australia and England. She was a vessel of 1,942 tons gross and owned by the Ocean Steamship company of Liverpool. She sailed from Sydney, N. S. W., January 19, for London and Liverpool. The last report of the Achilles shows that she left Capetown where she had evidently put in on the voyage March 8.

STEAMER GOLDMOUTH IS SENT TO BOTTOM

London, April 2.—The British steamer Goldmouth has been sunk and her crew, two members of which were suffering from injuries, was landed at Penzance, says a Lloyd's dispatch from that place, dated Saturday.

STILL ANOTHER BRITISH VESSEL IS DESTROYED

London, April 2 (1:59 p. m.)—"The British steamship Ashington has been sunk by straitened shells fired by a German submarine. Five members of the crew have been taken to a hospital. The vessel, according to the Exchange Telegraph company, was not armed."

NORWEGIAN STEAMER SUNK; ONLY ONE SURVIVOR

London, April 2 (2:12 p. m.)—"Lloyd's reports that the Norwegian steamship Peter Hamre was sunk Saturday night while at anchor. One man, the sole survivor of the crew of fifteen, has been landed from the Kentish Knock lighthouse."

The Man Who Smashed the Bandits

Colonel George A. Todd, who leads in the chase after Villa, is riding the magnificent horse on which he is here shown. This is Maharajah, a horse on which the colonel has won many blue ribbons at Ohio horse shows. The photograph was lent by Mrs. Todd, whose home is near Tulsa, N. Y. There isn't a horse in all Villa's army that approaches this one—perhaps not in all Mexico.

COMMITTEE SYSTEM MAY BREAK UNDER STRAIN

(Associated Press Correspondence) London, March 22.—The much-maligned committee system, which has been taxed with various of the minor activities of war-time in England, threatens to break under the strain imposed upon it. The relations between several of the committees and the cabinet are very strained, for members of the committees find when they get down to work that in many instances they have ready no power to do anything. They can only make representations to this or that department, and the department, as often as not, pays no attention to the representations.

Lord Curzon's shipping control committee is an illustration. So is Lord Lansdowne's committee on reserved occupations under the compulsory service act. The latter committee, which was charged with finding out what occupations should be exempted from military service, found that the board of trade issued its lists of reserved occupations without consulting the committee at all, and the members thereupon held a meeting to decide whether or not they should resign.

CUT THIS OUT—IT IS WORTH MONEY

DON'T MISS THIS. Cut out this slip, enclose with 1c and mail it to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for bronchial coughs, colds and croup; Foley Kidney Pills for lame back, weak kidneys, rheumatism, bladder troubles and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headache and sluggish bowels. Sold everywhere.

When they talk to you about the brewery, don't forget that Jere Hagard, "Cap's" man in the Third ward, is secretary of A. V. for J. L. Bell.

How She Cured Her Husband

"For five years my husband suffered with his stomach. The medicine he took only gave relief for a while, nothing cured, writes Mrs. Sarah Baker of Nottingham, Mo. "Our merchant bought some of Chamberlain's Stomach and Liver Tablets. He gave us some of them and I wanted my husband to try them. He said it would do no good. His stomach had been troubling him worse than ever. At last on Friday I told him if he would not take those tablets I was going to send for a doctor, and he said he would take them. By Monday he was like another man. The blues were gone, no more trouble with his stomach, and the best part is that the trouble has not returned. I cannot praise Chamberlain's Tablets too highly."

My! But This Spring Tonic Makes One Enjoy Living!

After weeks of overwork, your system run down, this herbal extract of Dr. Pierce's makes you feel your old time vigor—a real lasting improvement. When all nature seems to be glad we sometimes experience our greatest life. The important thing is to make this life worth while. When you catch cold, suffer from indigestion or notice the skin breaking out with pimples let this furnish you a warning that the blood is in disorder. Profit by the experience of others and quickly drive the poisons from the blood and build up the system with a reliable remedy—such as Doctor Pierce's Golden Medical Discovery which has stood the test of time, and for nearly half of a century has sold more largely than any other blood remedy. Thousands attest to its remedial value as witness the testimonials which have been published for years.

COMMON SENSE. No one ever takes cold unless constipated, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. Tonic consisting of large portions of alcohol, iron or cod-liver oil do not bring the desired changes in the blood, because they do not enter the system and are not absorbed into the blood, with the exception of the alcohol which shrivels up the red blood corpuscles when it does come in contact with them. We recommend this botanical extract of Doctor Pierce's because it contains no alcohol, and offers a reasonable and scientific method of treating the blood, by improving the nutritive functions of the patient. The "Golden Medical Discovery" accomplishes this, restoring the enfeebled digestive organs, so that food, the natural tissue-builder, will be digested and assimilated. For there is generally present in these cases, loss of appetite and lack of sufficient nourishment to replenish the waste of flesh.

The first day you start to take "Medical Discovery," impure germs and accumulations begin to separate in the blood and are then expelled through the Liver, Bowels and Kidneys. In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and all skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache and constipation.

Get Dr. Pierce's Golden Medical Discovery today at any medicine dealer's; it is a powerful blood purifier, so penetrating that it gets at the impurities and poisons within the body and carries them out of the system. It is not a secret remedy for its ingredients are printed on wrapper.

For free advice or free booklet on blood write Doctor V. M. Pierce, Buffalo, New York.

We Want 10c Water

The Santa Fe Railroad in Albuquerque Pumps Water for

Two and One-Half Cents a Thousand Gallons

Reject 20-Cent Water and Vote for the

BOND ISSUE

Read This Telegram:

Albuquerque, N. M., April 1, 1916.

F. C. Fox, General Manager, Santa Fe Railroad, Amarillo, Tex.

Would like to get your permission to state publicly cost of pumping water of your company at Albuquerque. If agreeable to you, state figures in your answer.

(Signed) Simon Stern.

Then Read THIS Telegram:

Amarillo, Texas, April 1, 1916.

Simon Stern, Albuquerque, N. M.

Wire date. Our cost is two and one half cents per thousand gallons.

(Signed) F. C. Fox.

In El Paso, Texas, the city owns its water plant. The El Paso water supply is naturally a hard proposition. Water is pumped seven or eight hundred feet from a long distance on the mesa. Conditions in Albuquerque are absolutely different. Contrast between Albuquerque and El Paso is absolutely unfair.

But in El Paso, under adverse conditions, THE AVERAGE RENTAL FOR WATER TO PRIVATE CONSUMERS PER THOUSAND GALLONS DURING 1914 was

Eleven and Seven-Tenths Cents

The cost of pumping and distributing water in El Paso, which includes delivery right into the house, was 7.6 cents per thousand gallons.

The average charge for water consumed for municipal purposes by the city of El Paso was 2.2 cents per thousand gallons. In other words the city was furnished water for its use for 2.2 cents per thousand that cost on the average 7.6 cents, the municipality getting the benefit.

In view of these conditions, the plant actually paid: For interest on bonds in 1914 the sum of \$26,730. Taxes during 1914, \$5,380. The city set aside as a reserve for depreciation of the system, \$29,400. And then had a net income or profit at the close of the year 1914 of \$7,946.96.

These figures are from the financial statement of the city of El Paso for the year ending March 31, 1914 and are absolutely accurate. In other words they are not taken from A. B. McMillen's handbook on the El Paso water situation.
